

How to Create and Update your Patient Portal Account

Why have I received an email from Sadio?

You have received this email because you provided your email address to your dermatologist's office and they would like to verify that the email is correct and invite you to fill out your medical information online prior to your visit.

What do I do once I receive an email to sign up for Sadio?

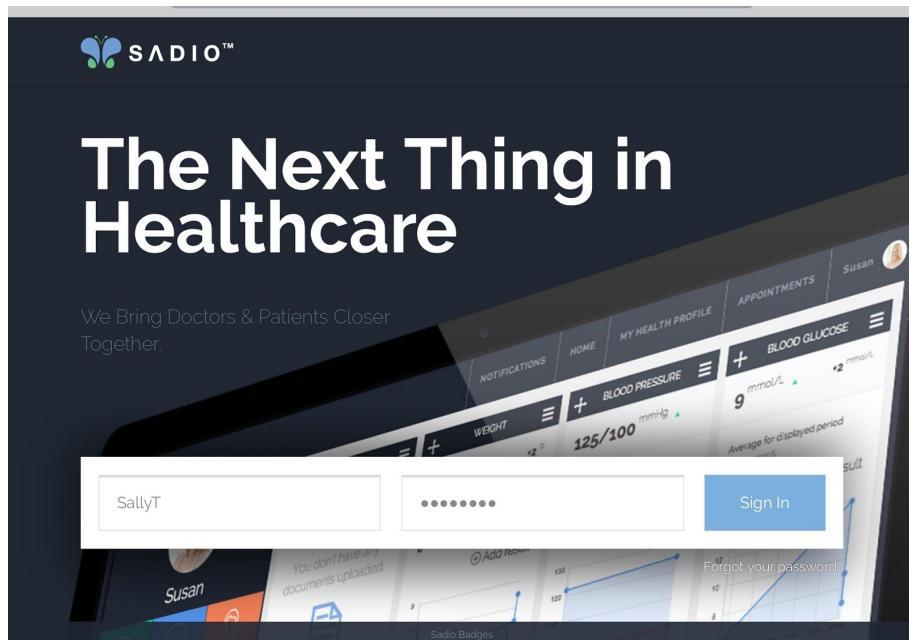

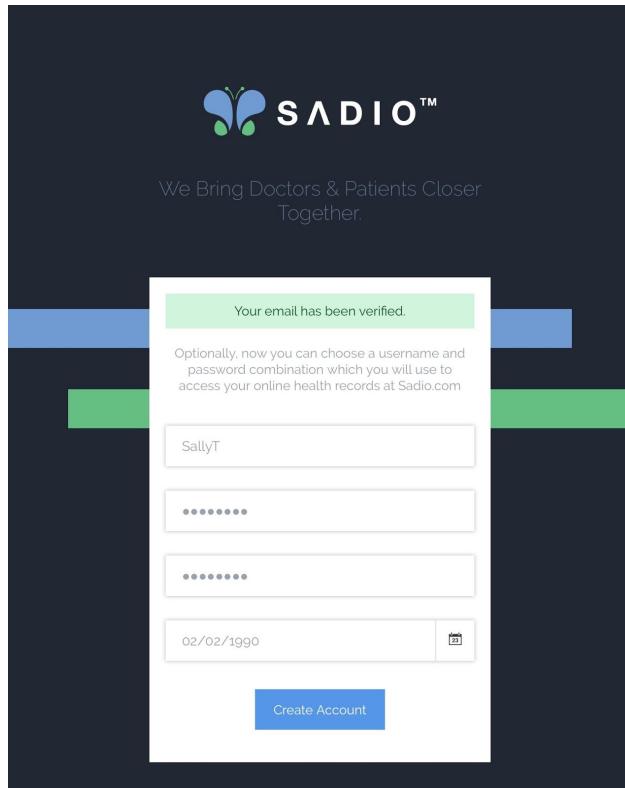

- 1) If an email address was provided to your dermatologist's office, you will receive an email from noreply@ezderm.com that contains a link to verify your email and create an account on Sadio, the patient portal. Once the link has been opened, the email address will be verified.

- 2) The system will prompt you to create a username, password, and enter your date of birth. **Please note that the date of birth must be entered in this specific format: DD/MM/YYYY (including backslashes).** The system will then ask you to login using the username and password you created. (See photos below)

NOTE: In the event you forget your password, please click "Forgot your Password?" and enter your username. If you do not remember your username, reach out to the doctor's office and they can provide it to you.

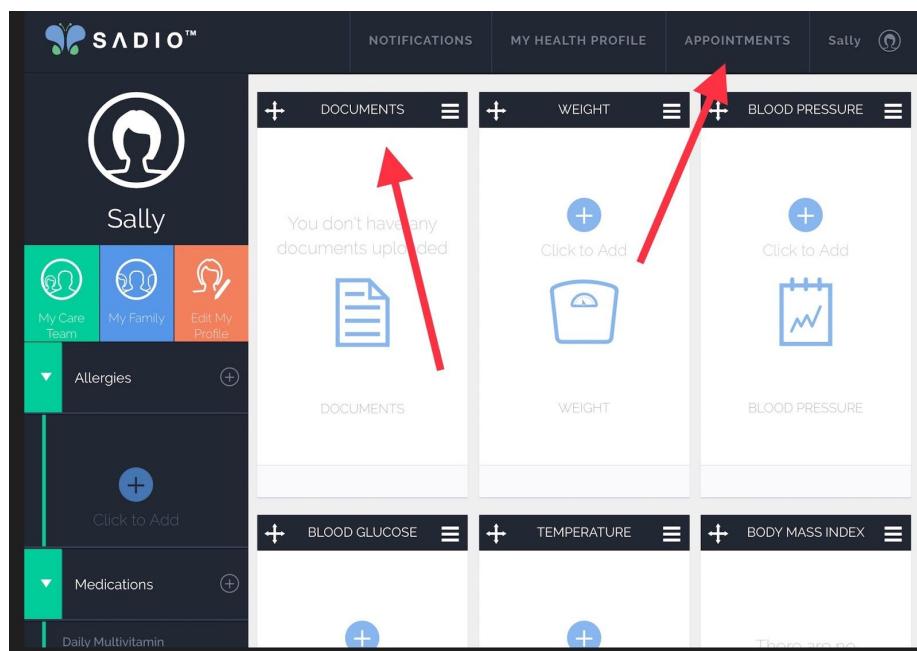

3) Once you have logged into your Sadio account, you will be prompted to answer questions regarding the following:

- Basic Information
- Allergies
- Medications
- Past Medical History
- Family History
- Surgical History
- Social History

After all sections have been answered, you will be brought back to the main screen. You can view any documents that are shared with you from your doctor's office under "Documents," as well as enter any other pertinent information from this screen (weight, blood pressure, blood glucose, temperature, and body mass index). You will also want to check if you have any consents that need to be signed prior to your visit. You can locate these by clicking on the "Appointments" tab.

4) Once you have entered the Appointments tab, you will be able to view your doctor's information and location, the date and time of your appointments, counseling information your doctor has provided you, and also your unsigned consents.

The screenshot shows the SADIO mobile application interface. At the top, there's a navigation bar with icons for heart, upload, delete, edit, and a link to 'All Photos'. The time is 3:23 PM, and it's 'Today' at 3:21 PM. A battery icon shows 100% charge. Below the navigation is a header with the SADIO logo and tabs for 'NOTIFICATIONS', 'MY HEALTH PROFILE', 'APPOINTMENTS', and a user profile for 'Sally'. The main content area is titled 'UPCOMING APPOINTMENTS'. It lists one appointment: 'Doctor' with 'Jennifer Calvert, MD' from 'LADerm Clinic' at '37 Dermal Way, Los Angeles, Florida 34110' on 'Monday, April 16, 2018 @ 4:15 PM'. The appointment details include 'Import VCS File'. To the right of the appointment, under the heading 'Consents', it says 'You have unsigned consents:' followed by three items: 'Consent to be Photographed', 'HIPAA Consent', and 'INSURANCE SIGNATURE ON FILE'. A red arrow points from the text 'You have unsigned consents:' towards the 'Consents' section. Below the appointment list, there are sections for 'PAST VISITS' (which says 'You don't have any past appointments') and 'PATIENT EDUCATION'.

5) Signing Consents - By clicking on the blue text under the unsigned consents, you will be brought to a screen to review that specific consent. To sign the consent, just tap on the screen where you see the pen and then sign your name. When completed, hit Save, and then the consent will be removed from the unsigned list.

The screenshot shows a modal dialog titled 'Sign Consent: HIPAA Consent'. At the top, it says 'Sign Consent: HIPAA Consent' and has a close button. Below that is the 'HIPAA Privacy Rule of Patient Authorization Agreement' and 'Authorization for the Disclosure of Protected Health Information for Treatment, Payment, or Healthcare Operations (§164.508(a))'. The text continues: 'I understand that as part of my healthcare, this facility originates and maintains health records describing my health history, symptoms, examination and test results, diagnosis, treatment and any plans for future care or treatment. I understand that this information serves as:'. To the right of the text is a drawing of a pen. At the bottom of the modal are two buttons: 'Clear' (orange) and 'Save' (blue). A red arrow points from the 'Save' button towards the 'Consents' section of the background. In the background, the same 'UPCOMING APPOINTMENTS' screen is visible as in the first screenshot.

Thank you! Please contact the office if you have any additional questions.
